

## Booster

### Description

Temperature resistant bi-directional Boosters are used to transmit detonation in Hollow Carrier Gun Systems during perforation.

### Specification

Part Number	EBO004001
Temperature Rating	400 °F(204°C) / 1 Hour
	356 °F(180°C) / 24 Hour
	302 °F(150°C) / 100 Hour
Length	1.378 in (35 mm)
Diameter	0.24 in (6.17 mm)
Explosive Type	HMX
Explosive Weight	0.6 g
Shell Material	Aluminum
Max. air gap for Booster to Booster transfer	3.15 in (80 mm)
Max. air gap for Booster to Det. Cord transfer	0.23 in (6 mm)

### Packing Information

Package (Pcs)	50
Package Type	Box+ Carton + Vacuum Bag
Dimensions of box (cm)	-
Net Weight per box(Kg)	-
Gross Weight per box (Kg)	-
